

## REPORTING FRAMEWORK

### EDITORIAL POLICY

To communicate initiatives intended to increase corporate value over the medium to long term, the Group reports financial and non-financial information in accordance with the following reporting framework. In preparing these reports, the Group referred to the International Integrated Reporting Framework proposed by the International Integrated Reporting Council (IIRC).

In the following report, the Group describes for a wide range of stakeholders its fundamental management policies for achieving sustainable growth, clarifies the social and environmental issues that it needs to address, and proactively discloses the initiatives that it is taking to address those issues.
