Message to Shareholders

First, I would like to convey my thanks to all of our shareholders for your support of the Bridgestone Group.

In this message, I will provide an overview of the Bridgestone Group's (the "Group") business results for the first half of the 97th fiscal year (from January 1, 2015, to June 30, 2015).

The operating environment surrounding the Group during the first half of 2015 was affected by a variety of significant factors, including the continued appreciation of the U.S. dollar and lower crude oil prices. The Japanese domestic economy continued gradual recovery with an improvement in company financial performance and unemployment rates. Overall, many overseas economies were recovering weakly while the political and economic situations remained unstable. The United States economy continued steady recovery supported by an increase in consumer spending. The European economy has been affected by geopolitical risks, although it has seen some signs of recovery as well. Asian economic growth has shown signs of sluggishness represented by slower Chinese economic expansion.

Under these operating conditions, the Group continued to work harder than ever to anticipate market trends and competitors' movements, as well as to enhance technologies and promote innovation to increase the sales of highly competitive products and services, and to establish and enhance business models that will extend beyond the mere sales of products.

As a result, net sales in the first half of fiscal 2015 were ¥1,855.4 billion, an increase of 6% from the first half of fiscal 2014; operating income was ¥237.7 billion, an increase of 7%; ordinary income was ¥232.9 billion, an increase of 6%; and net income was ¥144.6 billion, an increase of 2%.

As for dividends, we have decided to issue an interim cash dividend of ¥60 per share, with payments to begin on September 1, 2015.

Looking ahead, the Group's operating environment is undergoing substantial changes in a wide range of areas, including politics, the economy, the environment and technical innovation. Social structures and consumer attitudes also are changing significantly. Under these circumstances, and based on the corporate philosophy, the Group will pursue the ultimate goals of becoming "a truly global company" and achieving "Dan-Totsu* in all aspects of our business." The Group remains firmly committed to the principles of "Lean & Strategic" and "Optimize on a Group and Global Basis" and will continue implementing management reforms. In this way, the Group strives to achieve the goals outlined above.

In regard to its organizational structure, the Group will aim to further increase the efficiency of the "Strategic Business Unit (SBU) organization" to ensure that it can accurately understand and rapidly respond to the needs of global markets and customers. Moreover, the Group will continue to revise the "Mid-Term Management Plan" on a one-year rolling basis to respond to the turbulent operating environment with precision and speed.

Furthermore, the following three points will be priority tasks in managing the Group's business operations.

- 1. Cultivating a global corporate culture—The Group will continue to promote a consistent group and global brand strategy and accelerate innovation of technology and business models.
- 2. Developing human resources capable of global management—The Group will continue to promote the diversification of its human resources through active development and promotion of talent across regions including early career employees and women, as well as the designation of English as an official company language.
- Upgrading the global management structure—To continue to build the global management structure, the Group will focus on three primary approaches: enhance governance systems, restructure the tire business SBUs and expand the diversified product business.

To support these priority tasks, the Group will promote continuous improvements and management reforms based on the corporate mission of "Serving Society with Superior Quality." I respectfully ask all of our shareholders for their continued support as we continue to strengthen Bridgestone's business operations.

August 2015

Masaaki Tsuya

CEO and Representative Board Member, concurrently Chairman of the Board

^{* &}quot;Dan-Totsu" is the Japanese term for "the absolute and clear leader"

Operating Results

In the first half of fiscal 2015 (January 1 to June 30, 2015), the operating environment surrounding Group was as follows: the Japanese domestic economy continued gradual recovery with an improvement in company financial performance and the employment environment while the appreciation of US dollar and lower price of crude oil continued. The United States economy continues steady recovery supported by an increase in consumer spending. The European economy has been affected by geopolitical risks, although it has been recovering. The Asian economic growth has shown signs of sluggishness represented by slower Chinese economic expansion. Overall, many international economies were recovering weakly while the political and economic situation remained unstable.

Under these operating conditions, the Group continued their work to realize the ultimate goal of becoming "a truly global company" and achieving "Dan-Totsu in all aspects of our business." Stepping up efforts on a global scale, the Group was working harder than ever to anticipate market trends and competitors' movements, as well as enhance technologies and promote innovation to increase the sales of highly competitive products and services, and building and enhancing business models to extend beyond the mere sales of products. Moreover, the Group was striving to rapidly implement a range of initiatives to increase the sales of strategic products, strengthen supply capacity, improve manufacturing productivity, effectively utilize management resources, and develop eco-friendly products and businesses.

As a result, net sales in the first half of fiscal 2015 were ¥1,855.4 billion, an increase of 6% from the first half of fiscal 2014; operating income was ¥237.7 billion, an increase of 7%; ordinary income was ¥232.9 billion, an increase of 6%; and net income was ¥144.6 billion, an increase of 2%.

In the tire segment, the Group worked to maximize sales momentum by introducing appealing new products globally, enhancing strategic products and reinforcing fundamental competencies such as specification optimization, and responding promptly to demand fluctuation in each region.

In Japan, due to last-minute demand associated with the consumption tax rate increase in the previous year, the unit sales of passenger car and light truck tires decreased compared to the first half of fiscal 2014. The unit sales of truck and bus tires remained unchanged from the first half of fiscal 2014 due to an increase in the sales of original equipment tires. In the Americas, the unit sales of passenger car and light truck tires in North America increased firmly and the unit sales of tires for trucks and buses increased strongly compared to the first half of fiscal 2014. In Europe, the unit sales of passenger car and light truck tires increased steadily compared to the first half of fiscal 2014, as well as tires for trucks and buses. In Asia Pacific, the unit sales of passenger car and light truck tires remained unchanged from the first half of fiscal 2014 and the unit sales of truck and bus tires increased substantially compared to the first half of fiscal 2014. In China, the unit sales of passenger car and light truck tires increased substantially and the unit sales of truck and bus tires decreased substantially compared to the first half of fiscal 2014. In the specialty tire

business, the sales volume of off-the-road radial tires for construction and mining vehicles remained unchanged from the first half of fiscal 2014.

As a result, net sales in the tires segment during the first half of fiscal 2015 were ¥1,555.2 billion, an increase of 6% from the first half of fiscal 2014; operating income was ¥217.0 billion, an increase of 7%.

In the diversified products segment, net sales were ¥311.6 billion, an increase of 8% from the first half of fiscal 2014 due to the depreciation of the yen; operating income was ¥20.6 billion, a decrease of 2% due to a decrease in the profit of domestic business.

(Note) The amounts for segment results include inter-segment transactions that are eliminated in calculating the consolidated results.

Other Information

(1) Application of special accounting treatments for consolidated quarterly financial statements

(Calculation for income tax expense)

Income tax expense was calculated based upon an estimated effective tax rate for fiscal 2015.

(2) Changes in accounting policy, changes in accounting estimates, and restatements

Changes in accounting policy

(Application of Accounting Standard for Retirement Benefits)

The Company has applied the "Accounting Standard for Retirement Benefits" (ASBJ Statement No. 26 of May 17, 2012, hereinafter referred to as the "Retirement Benefits Accounting Standard") and the "Guidance on the Accounting Standard for Retirement Benefits" (ASBJ Guidance No. 25 of May 17, 2012, hereinafter "Retirement Benefits Guidance.") from the first quarter of fiscal 2015 as provided in the main clause of Article 35 of the Retirement Benefits Accounting Standard and the main clause of Article 67 of the Retirement Benefits Guidance. With this application, calculation methods for retirement benefit obligations and service costs were revised as follows: The method for attributing projected benefits to periods changed from the straight-line basis to the benefit formula basis. In addition, determination of the discount rate changed from a method based on the number of years approximating the average remaining years of service of the employees to a method using a single weighted average discount rate reflecting the estimated period and amount of benefit payment.

In accordance with the transitional treatment prescribed in Section 37 of the Retirement Benefits Accounting Standard at the beginning of the first half of fiscal 2015, the effect of the accounting change in retirement benefit obligations and service costs was adjusted in retained earnings.

As a result, net defined benefit asset included in "Other" in "Investments and other assets" decreased by ¥14,472 million, net defined benefit liability increased by ¥14,223 million and retained earnings decreased by ¥18,729 million at the beginning of the first half of fiscal 2015. The effect of this change on operating income, ordinary income and income before income taxes and minority interests for the first half of fiscal 2015 was immaterial.

(Revision of the projections)

Actual results of operating income, ordinary income, and net income for the first half of the fiscal year ending December 31, 2015, exceeded the projections previously announced on February 17, 2015. This increase was the result of the favorable price of raw material and feedstock and initiatives to reduce expenses. Additionally, the Company reviewed its consolidated financial projections for the second half of the fiscal year ending December 31, 2015, which were not updated on May 11, 2015, and revised its full-year consolidated financial projections for the fiscal year ending December 31, 2015.

(Note) Forward-Looking Statements

The preceding descriptions of projections and plans are "forward-looking statements," which involve known and unknown risks and uncertainties. These variables could cause the Bridgestone Group's actual performance and results to differ substantially from management's projections and plans, and the statement are not guarantees of future business performance.

(2) Projection of Dividends for the Fiscal 2015

The projection of dividends has not changed since February 17, 2015.

TOPICS

The following topics are introduced in accordance with the three priority tasks in managing the Group's business operations.

Bridgestone Group Awards 2015

[Developing human resources capable of global management: Promotion of diversification]

The Group holds the Bridgestone Group Awards every year for the purpose of raising the awareness of business activities based on the corporate philosophy and creating a sense of unity among employees. This recognition program is open to all employees and organizations of the Group Companies globally and has been held every year since 2008. The following five activities were selected for recognition for fiscal 2015. For details, please see the Bridgestone Group's CSR Report 2015.*1

Selected as an Eligible Company for Three Stock Selections

[Cultivating a global corporate culture: Acceleration of innovation]

[Developing human resources capable of global management: Promotion of diversification]

The Company was selected as an eligible company for the three brands below based on the verification of the Japan Ministry of Economy, Trade and Industry and the Tokyo Stock Exchange that various corporate activities of the Group would contribute to the improvement of long-term corporate value.

The "NADESHIKO Brand" represents companies actively promoting the utilization of women's abilities, such as creating a better work environment for women. Brand members are selected from among the listed companies on the First Section of the Tokyo Stock Exchange for each industry.

Why Bridgestone was chosen?

The Group has manifested the "Bridgestone Group's Stance of Respect for Diversity" to support female employees in pursuing high career positions and a balanced coexistence between job and family in diverse manners. With recognition of such a corporate stance and initiatives, the Company was selected as a "NADESHIKO Brand" in March 2015 for the second consecutive year.

The "Health & Productivity Stock Selection" represents companies that take a management-level commitment to employee health and undertake strategic initiatives in support of employee health. The named organizations are selected from among the listed companies on the Tokyo Stock Exchange for each industry.

Why Bridgestone was chosen?

Positioning "the enhancement of safety and health at worksites and the health management of employees" as one of its management priorities, Bridgestone Corporation (the Company) utilizes a variety of measures focusing on internal initiatives such as the prevention of excessive work, reinforced mental health care and countermeasures against lifestyle-related diseases. With recognition of such a corporate stance and initiatives, the Company was selected as a Health & Productivity Stock Selection in March 2015.

The "Competitive IT Strategy Company Stock Selection" represents companies which undertake Competitive IT Strategies to implement investment in and practical use of IT for the sake of increase in profits, business innovation, and the like. The enterprises are selected from among the listed companies on the Tokyo Stock Exchange for each industry.

Why Bridgestone was chosen?

In its Mid-Term Management Plan, the Company set forth to accelerate innovation in terms of technology and business models, including the enhanced use of IT/sensing technology for its business solutions. In recognition of the Company's commitment to technological innovation and many successful IT initiatives,, the Company was selected as a Competitive IT Strategy Company in May 2015.

Opening Ceremony of the Development/Training Facilities for Services Related to Mine Operations

[Cultivating a global corporate culture: Acceleration of innovation]

In April 2015, the Group opened facilities for the development and training for services related to Australian mining operations.. The facility specializes in mining tire business development and professional training to offer comprehensive solution services related to the Group's products that support mine operations, including tires for construction and mining vehicles, conveyor belts and high-pressure hoses.

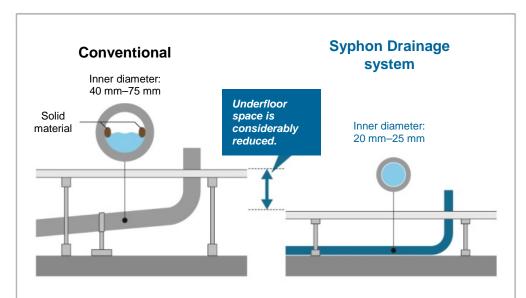

Exterior view of the training facility

Developed and Implemented an Innovative "Syphon Drainage System" for Buildings

[Upgrading the global management structure: Expansion of the diversified product business]

In May 2015, the Company announced that it has jointly developed with Nomura Real Estate Development Co., Ltd., and HASEKO Corporation a syphon drainage system that enables water section equipment for buildings to be freely placed and designed. This drainage system has been put into practical use^{*2} for a kitchen disposer, and we are working on further development of its extended application. The system is expected to increase the flexibility of space layout and the efficiency of drain pipe maintenance.

The left image shows a conventional drainage system. Meanwhile, the syphon drainage system on the right will enable the underfloor space to be reduced and the plumbing distance be elongated since the wastewater can be drained with no pipe gradient.

*2. Patent pending

34 Additional Sizes of REGNO GR-XI Tires for Passenger Cars are available

[Cultivating a global corporate culture: Acceleration of innovation]

The Company has released 34 new sizes for the REGNO GR-XI, a premium passenger tire launched in February. The additional sizes are available from July 2015. The REGNO GR-XI has been highly acclaimed by many customers since its first release, receiving many requests for additional tire sizes. The addition of 34 tire sizes will amount to a total of 64 sizes, thereby ensuring our appropriate response to more customers' needs.

Meanwhile, in July 2015, the REGNO GR-XI and the REGNO GRVII, a tire dedicated for mini vans launched in April 2015, received the Grand Prix at the Equipment Awards 2015

REGNO GR-XI

sponsored by *Nikkan Jidosha Shimbun* (Daily Automotive News) in Japan, for the first time in the car equipment sector.

Launch of the "TOTE BOX" Bicycle

[Upgrading the global management structure; Expansion of the diversified product business]

TOTE BOX

In response to customers' concern that they cannot easily replace their bicycles when they undergo changes in their life stages, the Group launched the TOTE BOX bicycle model in February 2015. This model has such features as a robust body that does not wobble with heavy luggage and a dedicated BOX basket and two custom bags (a pet bag and a cooler

bag), which can be attached either at the front or back of the body. By rearranging the BOX basket and/or the custom bags ,t can be enjoyed in different daily occasions such as taking a ride with a pet. It will provide a wide range of applications, corresponding to customers' various needs in their different life stages.

Launch of the "BRIDGESTONE GOLF J015" Golf Club Series

[Upgrading the global management structure; Expansion of the diversified product business]

The Group will launch the "BRIDGESTONE GOLF J015" golf club series in September 2015. This custom-fit golf club series is tailored for avid golf players who pursue their own optimum golf clubs. These premium, special clubs will be finished using custom-selected parts from among a variety of head and shaft models chosen through consultations with ouradvisors and/or experts, who are authorized by

Bridgestone Golf J015 Series

BRIDGESTONE SPORTS CO., LTD., one of the G

^{*3.} This series of products will be sold only at retail shops authorized by BRIDGESTONE SPORTS CO., LTD.
