Message To Our Shareholders

Net Sales: ¥3,039.7 billion

Operating Income: ¥285.9 billion Ordinary Income: ¥285 billion

Net Income: ¥171.6 billion

First, I would like to convey my thanks to all of our shareholders for your support of the Bridgestone Group.

In this message, I will provide an overview of the Bridgestone Group's results during its 94th fiscal year (from January 1, 2012 to December 31, 2012).

During this fiscal year, the Group's operating environment was plagued by generally rising prices for natural rubber and other raw materials and the continuing strength of Japanese yen. While there was some economic recovery in Japan, the recovery of our domestic economy was stalling due to a slowdown in global economic growth. While the U.S. economy was still on the seesaw of recovery and recession, the financial crisis had a negative impact on the European economy. Additionally in Asia, the economic expansion showed signs of a slowdown, particularly in China and India. Under these operating conditions, the Group worked to strengthen its operating foundation while implementing various strategic measures based on the Mid-Term Management Plan in accordance with the Lean & Strategic approach.

As a result of these efforts, net sales rose 1% year on year, to ¥3,039.7 billion; operating income increased 49%, to ¥285.9 billion; ordinary income was up 59%, to ¥285.0 billion; and net income increased 67%, to ¥171.6 billion.

In regard to year-end dividends, the Group intends to issue dividend payments of ¥16 per share, making for total dividend payments of ¥32 per share for the year when combined with the interim dividend of ¥16 per share.

Looking ahead, we anticipate that the Group's operating environment will continue to

grow increasingly difficult. Ongoing factors that will contribute to this harshness include fluctuations in material prices, unclear conditions in the global economy, and unstable political conditions around the world. Aiming to respond flexibly to such difficult conditions, the Group will strengthen bottom-up proposal functions from the front lines; communications intended to optimize Group and global operations, and team work for the full utilization of Group resources. Moreover, the Group will create new customer value through both technology innovation and business model innovation to drive us forward on our ultimate goal of being the "undisputed world No. 1 tire and rubber company both in name and reality." At the same time, we will be "Dan-Totsu", or the absolute and clear leader in all our industries and the company that is far outperforming its competitors.

I would like to ask all of our shareholders for their continued support as we continue to strengthen Bridgestone's business operations.

March 2013

CEO and Representative Board Member Masaaki Tsuya Attachment to the Notice of the 94th Annual General Meeting of Shareholders

Business Report

(January 1, 2012 through December 31, 2012)

I. CURRENT STATUS OF THE BRIDGESTONE GROUP

1. Business Developments and Results of Operations

In the fiscal year ended December 2012, the Bridgestone Group's (the "Group") operating environment was plagued by generally rising prices for natural rubber and other raw materials and the continuing strength of the Japanese yen. While increased demand was brought on by rebuilding and rebounding sales of new vehicles following recovery from the Great East Japan Earthquake, the recovery of domestic economy was stalling due to a slowdown in global economic growth. While the U.S. economy was still on the seesaw of recovery and recession, the financial crisis had a negative impact on the European economy. Additionally in Asia, the economic expansion showed signs of a slowdown, particularly in China and India.

Under these operating conditions, the Group continued working to achieve the goal of becoming the "World's undisputed No. 1 tire and rubber company in both name and reality". In this way, we will be "Dan-Totsu", or the absolute and clear leader in all our industries and the company that is far outperforming its competitors. Stepping up our efforts on a global basis, the Group focused on increasing sales of highly competitive products, strengthening supply capacity, improving manufacturing productivity, enhancing technology, and effectively utilizing our management resources. Moreover, within an operating environment that is evolving at an unprecedented speed, the Group has been striving to rapidly implement a range of initiatives to enhance its ability in ways, such as responding quickly to market trends, increasing sales of strategic products, constructing and enhancing a business model that will extend beyond mere sale of products, and developing eco-friendly products and businesses.

Consequently, the Group's consolidated net sales, operating income, ordinary income, and net income increased by 1%, 49%, 59%, and 67% to ¥3,039.7 billion, ¥285.9 billion, ¥285.0 billion, and ¥171.6 billion, respectively.

(1) Developments and results by business segments In the tire segment, the Group worked to maximize sales momentum by introducing appealing new products worldwide, particularly those that have been identified as strategic and important to the Group's future growth and reinforcing fundamental competencies such as specification optimization. The Group also responded promptly to demand fluctuation in each region.

In Japan, unit sales of replacement tires for passenger cars and light trucks increased over fiscal 2011 strongly. The unit sales of tires for trucks and buses decreased compared to fiscal 2011 due to a decline in the sales of replacement tires. In the Americas, the unit sales of passenger and light truck tires in North America remain unchanged from fiscal 2011. The unit sales of tires for trucks and buses decreased compared to fiscal 2011 mainly due to a decline in the sales of replacement tires. In Europe, unit sales of tires for passenger cars and light trucks, trucks and buses decreased compared to fiscal 2011 mainly due to a decline in the sales of replacement tires. In Asia Pacific, the unit sales of passenger and light truck tires grew significantly compared to fiscal 2011. The unit sales of tires for trucks and buses increased over fiscal 2011 strongly. In China, the unit sales of passenger and light truck tires decreased compared to fiscal 2011. The unit sales of tires for trucks and buses were substantially down from fiscal 2011. In the specialty tire business, unit sales of large and ultra-large off-the-road radial tires for construction and mining vehicles increased over fiscal 2011 due to expansion of production capacity. As a result, the Group's net sales and operating income for the tire segment in 2011 totaled ¥2,557.2 billion and ¥260.4 billon, an increase of 1% and 40% from 2011, respectively.

In the diversified products segment, net sales totaled ¥499.0 billion, remaining unchanged from fiscal 2011. Operating income was ¥25.5 billion, an increase of 339% from 2011, due to an increase of profit in the domestic business and BSAM's Diversified Product's business.

(2) Research and development

The Group's mission of "Serving Society with Superior Quality" mandates an unending quest to create higher value-added products worldwide to fulfill increasingly diverse societal requirements and market needs. To respond appropriately to rapidly changing market trends, such as changes in demand and competitive structure, the Group conducts R&D activities with the objective of establishing a competitive business model on a global basis, taking into consideration the environmental impact of its product development and production processes. A key challenge of the Group is to be "Dan-Totsu" of technology in each business domain in accordance with the Mid-Term

Management Plan.

The Group conducts technical development in a wide range of fields, from the development of raw materials, products, and services to future-focused fundamental and production technologies. Technologies that optimize quality and minimize cost of the product from the raw materials level can facilitate reductions in raw material consumption and contribute to environmental conservation and can help offset higher prices for raw materials. Activities also focus on contributing to the development of business solutions that provide products and services with added value.

R&D programs in the tire segment are based on the development philosophy of "peace-of-mind" for everything. The Group seeks to create tires with higher added value through the pursuit of three core elements of technology and product development of tires: environment, safety, and comfort. Based on the above-mentioned philosophy, the Group strives to further reinforce this area as core eco-friendly product group and businesses and strategic product group and businesse.

With regard to minimizing environmental impact, the Group will endeavor to develop eco-friendly tires that fulfill three environmental goals of the Group's Environmental Mission Statement: ecological conservation, resource conservation, and reducing carbon emissions. In 2012, the Group established a long-term environmental vision targeting 2050 and beyond in these three activity areas. These initiatives are designed to promote safety and comfortable mobility in the future and to help realize a sustainable society.

Regarding the activity of "In harmony with nature", the Group is developing a new method of inhibiting disease in rubber trees in order to advance the productivity of natural rubber. The introduction of a scientific diagnostic methodology enables easier and speedier visual diagnosis of disease.

Regarding the activity of "Value natural resources", the Group has set the goal of continuously using "100% sustainable materials" in our products as the long-term vision for 2050 and beyond as tire technology for the future. We will take the following actions as we work towards this goal; (1) reduce raw material consumption, (2) recycle resources and use them efficiently, and (3) expand and diversify renewable resources. Specifically, regarding (3) expand and diversify renewable resources, the Group is accelerating R&D activity for renewable natural rubber by developing Guayule and Russian dandelion. At the 2012 Paris Motor Show the Group exhibited a concept tire of

"100% sustainable materials". Further, the Group is targeting the year 2020 for commercial sale of certain sustainable materials used in the manufacturing process.

Regarding the activity of "reducing carbon emissions," the Group believes that the development of tires with reduced rolling resistance designs, which enhance fuel efficiency, can make a major contribution to the reduction of CO2 emissions.

The Group's ECOPIA line of eco-friendly tires features reduced rolling resistance without impairing safety, which is achieved in part through the use of NanoPro-Tech (Nanostructure-Oriented Properties Control Technology), a Group-patented technology.

The Group has begun to supply ECOPIA tires as original equipment passenger tires for the TOYOTA PRIUS PHV, Mitsubishi Mirage, Nissan Serena S hybrid, and other cars.

In the replacement market in Japan, the Group has launched The ECOPIA EP001S, which has obtained the highest rank—AAA—for rolling resistance performance and the highest rank "a" for wet grip performance under the Japan Automobile Tire Manufacturers Association, Inc.'s "Labeling System." Moreover, the Group has launched "ECOPIA EV – 01" for electric cars, which is developed based on the noise sensory assessment in collaboration with an outside research institute and noise restraining technology cultivating by "REGNO". In the future, the Group will continue to take aggressive steps to further enhance the ECOPIA lineup, including global development and expanding original equipment offerings on new cars.

The Group has positioned run-flat tires as an important strategic product line. The Group is actively working to promote the use of run-flat tires, which continue to function at a specified speed for a specified distance after the loss of air pressure. In addition, since the run-flat tires eliminate the need for a spare tire (emergency use tire), they help to conserve resources and support improved fuel efficiency through reduced vehicle weight.

The Group's strategic products also include off-the-road radial tires for construction and mining vehicles. The use of advanced technologies in these products has earned an excellent reputation of the Group in the marketplace. The Groups new off-the-road plant in Aiken County, South Carolina, USA will begin production in 2014, followed in 2015 by the new construction and mining radial tire plant in Rayong, Thailand. The Group is expanding its production and supply capacities by developing the production technologies overseas. Moreover, the Group launched a new system of monitoring tire

pressure and thermal management "B-TAG" which is sending information measured by a uniquely developed sensor to drivers in real. The Group will deploy this new solution business globally in the future.

The solutions business using retread tires contributes to improve total life and fuel efficiency by integrating new tires, retread tires and maintenance. The Group is developing Bandag Retread Factory outlets that offer integrated manufacturing, service, and sales of retread tires at more locations globally. In addition, the Group is also developing the Eco Value Pack, which contributes to environmental conservation, cost optimization and safe operation domestically. As for new technologies for the future, the Group successfully developed the TRISAVER, a new truck and bus tire manufacturing technology, which results in both significant resource conservation and enhanced fuel efficiency by using the retread technology. While new tires are manufactured by vulcanizing all the materials at once, the TRISAVER technology employs separate vulcanizing of the casing (the original body of the tire) and the tread (the rubber component of the tire that makes contact with the road). This new technology greatly reduces rolling resistance compared to conventional tires, and at the same time enhances durability, thereby potentially increasing the number of times the tire can be retreaded.

In the diversified products business, the Group continues working to strengthen its product lineups in key operational fields. At the same time, the Group is tackling R&D activities with the objective of providing products that accurately meet constantly changing needs and foster customer satisfaction.

The quality of the Group's adhesive film for solar modules, which is one of its key products in the high-performance film field, is highly regarded in the marketplace. That quality was made possible by the Group's original material composition technologies and superior precision processing technologies. Solar modules provide an environmentally friendly system for generating green power and demand for them is expected to grow in the medium and long term. By working to achieve further increases in the performance of the Group's products and taking aggressive steps to boost our production capacity, the Group is making a contribution to the spread of green energy.

Regarding rubber for the seismic isolation of buildings, which prevents building collapse and damage by earthquakes, the Group continues to develop high-performance products while considering the environment. The Group has begun to sell new products designed to reduce impact on the environment both during production and after use,

through the use of materials developed to replace lead, which provided an attenuation characteristic.

The Group successfully developed Anti-Vibration Rubber with significantly reduced weight in comparison with conventional products by mixing with plastic torque rod and resinifying clasp. This product was appreciated due to the contribution to improvement of fuel consumption efficiency by resources-saved product and car weight saving. Consequently, the product was awarded the Chairman's Prize from the Chairman of Japan Management Environmental Association for industry, 2012 Resource Recycle Technology System Honor.

2. Capital Investment

The Group focuses on strengthening supply capacity in those business areas which are expected to grow and it intends to be highly competitive in the marketplace. The Group also makes strategic investments in enhancing our production capacity and R&D facilities.

In 2011, the Group increased the production capacity at the Kitakyushu Plant for large and ultra-large off-the-road radial tires for construction and mining vehicles. These large and ultra-large off-the-road radial tires for construction and mining vehicles require specific, highly advanced product development and production technologies in order to respond to the needs of customers on-site. Among strategic tire products, the Group is actively working to promote the large and ultra-large off-the-road radial tires that have more of such features and hence are highly competitive in the marketplace.

As for other tires, in response to increasing demand in emerging economies, the Group started construction of the new plant at Pune in India that manufactures tires for passenger cars, trucks, and buses. Furthermore, the Group is enhancing production capacity at Tianjin Plant and Wuxi Plant in China for passenger cars, at Nong Khae Plant in Thailand for passenger car and light truck tires, and Poznan Plant in Poland for passenger car tires. Also, in response to steady demand in the mature North American market, the Group started enhancing production capacity at the Aiken Plant in the U.S. for passenger car and light truck tires.

In the diversified products business, the Group has expanded its production capacity to meet the increasing demand for adhesive film for solar modules.

Consequently, the Group's capital investment amounted to ¥245.6 billion in 2012. It comprises ¥223.6 billion for the tire segment and ¥21.9 billion for the diversified products segment.

3. Financing

The Group endeavors to diversify its funding sources and to secure long-term financing. To that end, in 2012, the Group raised funds by issuing long-term debt of ¥68.7 billion, bonds of ¥28.1 billion, and other methods.

At the period-end, the total interest-bearing debt (see note below) was ¥620.0 billion, which was increased by ¥17.4 billion compared with the previous period-end.

(Note) Interest-bearing debt includes short-term debt, commercial paper, bonds, long-term debt, and obligations under finance leases.

4. Management Tasks

The ultimate management goal of the Group is to be the "World's undisputed No. 1 tire and rubber company in both name and reality." Moving forward, we will implement all of our business activities based on an awareness of our corporate social responsibility (CSR). To that end, the Group will strive to realize the mission spelled out in its corporate philosophy –"serving society with superior quality". In addition, the Group will solidify its business footing in Japan and will rigorously proceed with Group and global business development on the strong foundation of its Japanese business.

Based on this management stance, we position the strategic business unit (SBU) organization and the Mid-Term Management Plan as the foundation of management, and, striving to be a true global corporation with management optimized on a Group-wide basis, we step up the pace of management reforms and advance operational development.

The Group faces major structural changes that are occurring at a rapid pace, including changes in demand structure, competitive structure, and profit structure based on the underlying trend of yen fluctuation and raw material prices, which are increasing at an unprecedented rate. Based on these factors, the Group believes that it will be difficult to achieve quality, sustained growth solely by pursuing external growth in net sales and in

its overseas business. Although there are signs of recovery in U.S. business conditions, the global economy faces higher levels of instability and risk. Major concerns include a serious economic recession in Europe and decelerating economic growth in emerging countries.

In the face of this growing instability and risk, the Group will strengthen bottom-up proposal functions from the front lines; communication intended to optimize Group and global operations, and teamwork for the full utilization of Group resources. In accordance with the Lean & Strategic approach, we will create new customer value through both technology innovation and business model innovation. In this way, we will strive to be "Dan-Totsu" of the industry in all aspects of our businesses.

In the Mid-Term Management Plan 2012, announced in October 2012, we developed five initiatives to be "Dan-Totsu".

The first is "expanding strategic tire products and businesses." In passenger tires, including run-flat tires, UHP tires, and winter tires, we will incorporate the Group's leading-edge technologies and take steps to aggressively expand sales on a group-wide basis. In truck and bus tires, in order to meet the needs of customers and society for operation with environmental responsiveness, cost optimization and safe operation, we will implement our solutions business globally. This initiative will utilize retreading and expand sales, particularly in emerging markets, through the installation of solutions business infrastructure. We will strengthen our off-the-road radial tires for construction and mining vehicles business in order to respond rapidly and flexibly to changes in the operating environment. Accordingly, in addition to promoting new plant project in North America, we will build a new plant in Thailand as second overseas production site of off-the-road radial tires.

The second initiative is "reinforcing fundamental competencies," specifically by the optimization of specifications and reviewing cost for processing in order to bolster overall supply chain competitiveness. In optimizing specifications, the fundamental task is meeting the quality demanded by the market. On that basis, we will focus on technical development that also contributes to the environment, with a focus on achieving enhanced safety and reduced raw material consumption (half weight). We will strive to maximize those effects through integrated activities that combine product development, production technologies, and procurement/internal manufacturing. In reviewing cost for processing, we will develop high-productivity technologies while maximizing the use of existing production capacity. This will allow us to establish an organizational system that

contributes to improved profitability globally.

The third initiative is "to make full use of vertical and horizontal expansion efficiencies." Through vertical expansion in the upstream sectors of the supply chain, we will control tire quality and cost beginning at the raw material level. In the downstream, we will expand the network of retail outlets to provide customers with optimal products and services on a timely basis. In addition, we will advance initiatives that fully leverage our ability to rapidly respond to market needs. Moreover, through "horizontal expansion," we will evaluate the roles of industrially developed countries and emerging countries in sales and production, and invest management resources to maximize their contribution to the Group as a whole.

The fourth initiative is implementing "selection and concentration in diversified products business" or nontire operations. We will work to bolster the global development of our chemical and industrial products operations and the development of new business models, and we will take steps to expand profits mainly through anti-vibration rubber, belts, hoses, rubber crawlers, and seismic isolation rubber operations leveraging technological strengths in such areas as rubber, adhesives, and reinforcement materials. Moreover, in BSAM's diversified products business, we will reinforce the building operations, centered on roofing products.

The fifth initiative is "enhancing environmental activities and eco-friendly products and businesses". In accordance with the recently reissued and reinforced global Environmental Mission Statement, we have determined the long-term direction of the Group's environmental activities. Moving forward, we will target the realization of a sustainable society that is environmentally friendly, recycling-oriented, and has low-carbon output. By incorporating these objectives into our plans for individual eco-friendly products and businesses, we will have a framework for achievement of the mission which was set by considering social and operating environmental factors.

The Group believes that in order to realize a basic system for implementing these strategies and measures, it must optimize organizational systems on a Group and global basis and undertake a Mid-Term Management Plan that is consistent for the Group as a whole.

Therefore, the Group will continue to strengthen those aspects of its operations. As an organizational systems initiative, the Group will gain an accurate understanding of market and customer needs in regions worldwide. Based on that understanding, the

Group will evolve and further increase the effectiveness of the SBU system, which was introduced to optimally and rapidly reflect such needs on a Group and global basis. Further, in order to prevail and survive amid tough business conditions, it is critical for the Group to take utmost advantage of its wide-ranging and diverse management resources in accordance with consistent targets and plans. To realize those objectives, the Group will revise the Mid-Term Management Plan on an annual rolling basis, extending it by one year at a time. Those revisions will enable the Group to quickly respond to dramatically fluctuating business conditions and steadily increase its earnings levels.

In addition, the Group will step up efforts to build systems that will support the Group's fulfillment of its responsibilities as a corporation toward all of its stakeholders. The Group will conduct regular yearly reviews of its policy for the development of internal control systems that ensure appropriate operations. Moreover, the Group will undertake reviews of that policy as needed and continually develop systems in accordance with the policy. For corporate governance systems, the Group will take further steps to ensure that decision-making consistently follows fair and transparent rules. Centering on the Integrated CSR Enhancement Committee, the Group's CSR activities will establish systems and heighten the effectiveness of activities in all areas, including rigorous risk management for environmental protection, product safety, compliance and disaster prevention and safety initiatives; internal control improvement; employee education; and corporate citizenship activities.

5. Assets and Operating Results

| | Unit | 2009 | 2010 | 2011 | 2012 |
|----------------------|-----------------|-----------|-----------|-----------|-----------|
| Net Sales | Yen in millions | 2,597,002 | 2,861,615 | 3,024,355 | 3,039,738 |
| Net Income | Yen in millions | 1,043 | 98,913 | 102,970 | 171,605 |
| Net Income Per Share | Yen | 1.33 | 126.19 | 131.56 | 219.26 |
| Total Assets | Yen in millions | 2,808,439 | 2,706,639 | 2,677,344 | 3,039,251 |

- Note 1: Net income per share is calculated using the average number of shares during a period.
- Note 2: Net sales and net income for 2010 significantly increased from 2009 principally due to the recovery of demand. As for the factors that contributed to net income for 2012 significantly increased from 2011, please see "1. Business Developments and Results of Operations" in "I. CURRENT STATUS OF THE BRIDGESTONE GROUP". Additionally total assets for 2012 significantly increased from 2011 due to capital investment for productive equipment and depreciation of Japanese yen and others.

6. Major Subsidiaries

| Kazuhisa | Member of | Bridgestone | 54 | 26 | 24 | 104 |
| Nishigai | the Board | Corporation | | | | |

- (3) Policy and process for setting directors' and corporate auditors' remuneration
- i) Policy for setting directors' and corporate auditors' remuneration

Bridgestone Corporation has adopted "Principles for Remuneration Setting," with four elements: to attract and cultivate superior talents, competitive remuneration level, motivation for execution of business strategies, and motivation for enhancing shareholder value. Based on the Principles, it sets remuneration for directors and corporate auditors reflecting such factors as our performance results and business size, also taking into consideration the remuneration levels of other major global companies in Japan.

(a) Remuneration for directors comprises three components: monthly payments, bonuses, and stock options. While monthly payments are fixed in nature, bonuses vary depending upon the Company's performance. In addition, stock-compensation-type stock options are varying remuneration designed to motivate and raise the morale for better mid- to long-term corporate value, and to promote the sharing of value with shareholders.

Remuneration for Outside Directors comprises the fixed monthly payments. This is based on the consideration that Outside Directors contribute to mid- to long-term business results and corporate value by way of participating in the management judgment in their capacity of officers who do not execute day-to-day business operations.

Directors can exercise their stock options from the day after their retiring date.

(b) The sole component of remuneration for corporate auditors is the fixed monthly payment.

It does not include remuneration that varies depending on the Company's performance because corporate auditors assume the role of auditing the Member of the Board executing their duties independently from those members.

Regarding retirement benefit plans, Bridgestone Corporation discontinued such plans for directors and for corporate auditors in March 2009 and March 2010, respectively.

ii) Process for setting directors' and corporate auditors' remuneration

Bridgestone Corporation aims at ensuring an objective and transparent remuneration program. To that end, it has established the Compensation subcommittee, which shall include one or more than one of Outside Directors and one or more than one of corporate auditors, and the Directorial Personnel and Compensation Committee, which shall include one or more than one of corporate auditors. The committee and subcommittee discuss the entire range of issues regarding remuneration, including the basic principles, the program schemes, and remuneration amounts, reflecting such factors as the business environment and our performance results, also taking into consideration the remuneration levels and trends of other major global companies in Japan. The draft resolution, approved by the Compensation subcommittee and the Directorial Personnel and Compensation Committee, is then discussed and determined by the Board of Directors for directors' remuneration and by the Board of Corporate Auditors for corporate auditors' remuneration.

Actual amounts of remuneration need to undergo the approval process that the Companies Act of Japan requires before being determined.

- (a) The amounts of monthly remuneration paid to directors are determined by the Board of Directors, within the upper limit of ¥35 million per month, a total for all the directors, resolved at the 83rd Annual General Meeting of Shareholders held on March 28, 2002. The amounts of monthly remuneration paid to corporate auditors are determined by the Corporate Auditors, within the upper limit of ¥12 million per month, a total for all the corporate auditors, resolved at the 91st Annual General Meeting of Shareholders held on March 30, 2010.
- (b) The amounts of variable remuneration, namely bonuses and stock-compensation-type stock options paid or granted to directors are determined by the Board of Directors within the limit resolved by the Annual General Meeting of Shareholders held every year.

3. Outside Directors and Outside Corporate Auditors

(1) Main activities of Outside Directors and Outside Corporate Auditors

| Positions | Names | Attendance at | Primary activities | | |
|-----------|-----------|----------------------|---|--|--|

| | | 16 out of 16 | professional perspectives as a Lawyer. | | |
| | | (Board of | | | |
| | | Corporate Auditors) | | | |
| Corporate | Tomoko | 14 out of 14 (Board | She made necessary remarks for ensuring appropriate | | |
| Auditor | Watanabe | of Directors) | decisions made by the Board of Directors principally from | | |
| | | 10 out of 10 | professional perspectives as a Patent Attorney. | | |
| | | (Board of | | | |
| | | Corporate Auditors) | | | |

- Note 1: Corporate Auditor Tomoko Watanabe has different numbers of meetings of Board of the Directors and Board of the Corporate Auditors she could attend because she was elected at the 93rd Annual Shareholders' Meeting held on March 27, 2012.
- (2) Liability limitation agreements with Outside Directors and Outside Corporate Auditors

Bridgestone Corporation has entered into agreements with all of its Outside Directors and Outside Corporate Auditors to limit their liability with regard to the damage compensation liability of Paragraph 1 of Article 423 of the Companies Act of Japan. Such agreements are based upon Paragraph 2 of Article 27 and Paragraph 2 of Article 35 of its Articles of Incorporation, which was stipulated pursuant to Paragraph 1 of Article 427 of the Companies Act of Japan. Under the agreements, the maximum amount of their liability shall be the higher of either 10 million yen or the minimum liability amount prescribed in Paragraph 1 of Article 425 of the Companies Act of Japan.

V. INDEPENDENT AUDITORS

1. Name of Independent Auditors

Deloitte Touche Tohmatsu LLC

2. Independent Auditors Compensation for the Current Period

| Amount of compensation to be paid by Bridgestone Corporation to the | ¥179 million |
|--|--------------|
| Independent Auditors | |
| Total amount of compensation to be paid by Bridgestone Corporation and | ¥312 million |
| its subsidiaries to the Independent Auditors | |

- Note 1: The audit agreement entered into by the Independent Auditors and Bridgestone Corporation does not separately stipulate the compensation amounts for the audit under the Companies Act of Japan, the audit under the Financial Instruments and Exchange Act, and the audit on consolidated financial statements in English language. Neither can those three amounts be practically distinguished from one another. Hence, the above amounts indicate the total amounts to be paid to the Independent Auditors.
- Note 2: Bridgestone Corporation has paid to the Independent Auditors for services (nonauditing services) other than those set forth in Article 2, Paragraph 1 of the Certified Public Accountants Act. Such services include advice on and guidance regarding the International Financial Reporting Standards.

Note 3: Major overseas subsidiaries are subject to audit by overseas independent auditors other than Bridgestone Corporation's independent auditors. Such overseas independent auditors are qualified as certified public accountants or audit corporations under relevant overseas laws and regulations. Audit here means those in compliance with overseas laws and regulations equivalent to the provisions in the Companies Act of Japan or the Financial Instruments and Exchange Act of Japan.

3. Policy for Determination of Dismissal or Nonreappointment of the Independent Auditors

The Board of Corporate Auditors dismisses the Independent Auditors with a unanimous resolution in the event where it determines the Independent Auditors fall under any item of Article 340, Paragraph 1 of the Companies Act of Japan.

In addition, the Board of Directors submits a proposal, with the consent of, or on the request of, the Board of Corporate Auditors, for dismissal or nonreappointment of the Independent Auditors to a General Meeting of Shareholders, in the event where it is deemed necessary in order to ensure a proper audit is performed or to enhance the appropriateness of the audit.

VI. SYSTEMS TO ENSURE COMPLIANCE OF THE DIRECTORS' EXECUTION OF DUTIES WITH LAWS AND REGULATIONS AND THE ARTICLES OF INCORPORATION, AS WELL AS OTHER SYSTEMS TO ENSURE THE PROPRIETY OF BUSINESS OPERATIONS

Bridgestone Corporation decided in May 2006, in accordance with Article 362, Paragraph 5 of the Companies Act of Japan, on its policy to develop systems, often called the "internal control systems", which are necessary to ensure the propriety of business operations. The policy, which has been updated as necessary since then, was revised to constitute the Policy 2013 at the meeting of the Board of Directors held on December 17, 2012, in consideration of the extent of the subsequent implementation of the internal control systems. The policy will continue to be revised every year.

(1) Systems to ensure compliance of the directors' and the employees' execution of duties with laws and regulations and the articles of incorporation

The Board of Directors articulates the management stance and oversees the execution of

duties by the Members of the Board, in accordance with the Board of Directors Rules. The Board of Directors ensures compliance of the execution of duties by the Members of the Board with laws, regulations, and the articles of incorporation through obtaining reports from them and deliberating in its meetings.

Bridgestone Corporation has formulated an approach and basic policies for implementing and advancing the compliance systems, which call for the Member of the Board and all of our employees to act in line with the Bridgestone Corporation philosophy based upon our mission "Serving Society with Superior Quality," and frame of mind "Seijitu-Kyotyo," "Shinsyu-Dokuso," "Genbutsu-Genba," and "Jukuryo-Danko," in addition to compliance with laws, regulations, and the articles of incorporation. A unit dedicated to handling compliance, which reports to the Chief Compliance Officer (CCO), has responsibility for the operation of a compliance counseling office that includes a helpline to provide employees confidential channels in seeking compliance-related advice, as well as for promoting compliance-related education for directors and employees. Recognizing the CSR-related importance of compliance activities, Bridgestone Corporation has previously established the Compliance Committee, which is chaired by the CCO and is a subcommittee of the Integrated CSR Enhancement Committee, which is chaired by CEO of the Group. Moving forward, Bridgestone Corporation will continue to advance compliance activities as one facet of its CSR.

As reiterated by the Chairman of the Board, the CEO of the Group, the Group has no connection whatsoever with antisocial forces or groups that threaten public order and safety. The Group takes a resolute stand against any requests from such antisocial forces or groups. The Group has established a department to evaluate information received regarding such matters, has worked to build relationships of trust and cooperation with external institutions, such as the police and other related organizations, and has been working to implement a manual for dealing with inappropriate or illegal requests, evaluating and reviewing contracts, and implementing other related measures. Bridgestone Corporation will strive to see that these measures are widely known and will continue to strengthen internal systems aimed at abating any such antisocial forces.

Regarding the "system for ensuring appropriateness of statements on finance and accounting and other information", set forth in Article 24-4-4 of the Financial Instruments and Exchange Act of Japan (the so-called "J-SOX Act"), the Group will work to ensure an effective and reliable system of internal controls on a Group-wide basis and to further raise the level of internal control throughout the Group.

(2) Systems to preserve and manage information pertaining to the execution of duties by directors

Bridgestone Corporation documents, without delay, information related to the execution of duties by the Member of the Board, including minutes of meetings of the Board of Directors and Executive Operational Committee and approval of business operations. Once confirmed, such documents are preserved and managed in an appropriately searchable manner, also with appropriate measures against information leaking, in compliance with applicable rules and guidelines. Moving forward, Bridgestone Corporation will continue to implement such appropriate information management.

(3) Rules and other systems regarding risk management

Risk management activities, led by the Chief Risk Officer (CRO), focus on the identification and mitigation of operational risks and the implementation of measures — as outlined in a basic risk management manual — designed to prevent both small-scale accidents and large-scale incidents. Contingency planning activities include the formulation and review of business continuation plans aimed at restoring operations as quickly as possible in the event of any disruption. In line with the recognition of the importance of risk management in CSR, Bridgestone Corporation has previously established the Risk Management Committee, which is chaired by the CRO and is a subcommittee of the Integrated CSR Enhancement Committee which is chaired by the CEO of the Group. Moving forward, the Group will continue to find additional ways to strengthen the system to comprehensively manage risks that could have a major influence on the operating activities of Bridgestone Corporation and other Group companies.

(4) Systems to ensure the efficient execution of duties by directors

Bridgestone Corporation articulates and implements its policies in accordance with the Policy Management Rules, and ensures the efficient execution of duties by the Member of the Board in accordance with the Administrative Authority Rules. Bridgestone Corporation will review and revise such system as necessary.

(5) Systems to ensure the propriety of business operations conducted by the corporate group consisting of the company and its subsidiaries

Bridgestone Corporation clarifies and makes understood the responsibilities, authorities, and ways of business operations by delineating in the Administrative Authority Rules and other corporate regulations, including rules and guidelines.

Since each company of the Group is an independent entity, Bridgestone Corporation respects each company's decisions and business operations made and executed by the bodies of each company. From the optimum perspective of the Group, though the Administrative Authority Rules stipulate that Bridgestone Corporation, the parent company, advise or approve certain important issues of the Group companies.

The Internal Auditing Office, which audits the management of Bridgestone Corporation and its Group companies, has strengthened its organization and activities and continues to enhance its operations.

As for the Group companies that have simplified their governing organizations in accordance with the Companies Act of Japan, the Group ensures the propriety of its business operations through enhanced internal audit functions.

These rules and systems ensure the propriety of business operations conducted by the group consisting of Bridgestone Corporation and its subsidiaries.

(6) Matters concerning employees where a corporate auditor requests employees to assist with duties and the independence of those employees from directors.

Bridgestone Corporation has established the Corporate Auditor Office which supports the duties of the Corporate Auditors and has assigned a certain number of employees to the office. Change or any other personnel matters related to the Office need the advance consent of the Corporate Auditors.

(7) Systems for directors and employees to report to corporate auditors and other reporting systems to the corporate auditors and other systems to ensure effective audits by corporate auditors.

Members of the Board and employees have and will continue to respond without delay to any queries or any other requests for information from the Corporate Auditors. In addition, they immediately report to the Corporate Auditors any fact that may significantly affect Bridgestone Corporation or its Group companies, including any fact likely to cause substantial detriment to the Group, or any misconduct or material facts in violation of laws and regulations or the article of incorporation by Members of the Board or employees. Further, Members of the Board and employees have reported and will continue to report in advance to the Corporate Auditors the agenda of meetings of the Board of Directors and the Executive Operational Committee, for which the results are also reported to the Corporate Auditors. Bridgestone Corporation implements any other systems necessary to ensure

effective audits by the Corporate Auditors, responding to their requests.

Notes to Consolidated Financial Statements

(Basic important matters for preparation of consolidated financial statements)

- 1. Scope of consolidation
 - (1) Number of consolidated subsidiaries: 316 companies

Names of principal companies:

- · BRIDGESTONE TIRE JAPAN CO.,LTD
- · BRIDGESTONE RETAIL JAPAN CO.,LTD
- · BRIDGESTONE DIVERSIFIED CHEMICAL PRODUCTS CO., LTD
- · BRIDGESTONE DIVERSIFIED PRODUCTS EAST CO., LTD.
- · BRIDGESTONE DIVERSIFIED PRODUCTS WEST CO., LTD.
- BRIDGESTONE SPORTS CO., LTD.
- · BRIDGESTONE CYCLE CO., LTD.
- · BRIDGESTONE FINANCE CORPORATION
- BRIDGESTONE AMERICAS, INC.
- · BRIDGESTONE AMERICAS TIRE OPERATIONS, LLC
- · BRIDGESTONE RETAIL OPERATIONS, LLC
- · MORGAN TIRE & AUTO, LLC
- · BRIDGESTONE BANDAG, LLC
- · BRIDGESTONE CANADA INC.
- · BRIDGESTONE DE MEXICO, S.A. DE C.V.
- · BRIDGESTONE FIRESTONE VENEZOLANA, C.A.
- · BRIDGESTONE DO BRASIL INDUSTRIA E COMERCIO LTDA.
- · BRIDGESTONE ARGENTINA S.A.I.C
- · BRIDGESTONE EUROPE NV/SA
- · BRIDGESTONE DEUTSCHLAND GMBH

(Note) Business transfer of overseas financial subsidiary

On January 1, 2013, BRIDGESTONE FINANCE EUROPE B.V. transfered its business to BRIDGESTONE TREASURY SINGAPORE PTE.

LTD., which was established on July 2 2012, as an overseas financial subsidiary.

Changes in the scope of consolidation

Additions: 6 companies (increased by establishment) Deletions: 22 companies (mainly, decreased by liquidation)

- (2) There are no non-consolidated subsidiaries.
- 2. Scope of application of equity-method accounting
 - (1) Number of equity-method affiliates: 148 companies

Name of principal company:

BRISA BRIDGESTONE SABANCI LASTIK SANAYI VE TICARET A.S.

Changes in the scope of equity-method accounting

Deletions: 4 companies (mainly, decreased by liquidation)

- (2) There are no non-consolidated subsidiaries or affiliates to which equity-method accounting are not applied.
- 3. Fiscal year of consolidated subsidiaries

Consolidated subsidiary of BRIDGESTONE INDIA AUTOMOTIVE PRODUCTS PRIVATE LIMITED., ends its fiscal year on March 31. Consolidated results are adjusted as necessary to reflect important transactions taking place between the respective fiscal year -ends of the subsidiary and consolidated balance sheet date.

- 4. Summary of significant accounting policies
 - (1) Valuation policies and methods for investments in securities

Available-for-sale securities

With market value

- Fair value based on the market price, etc., at the fiscal year end (Unrealized gain and loss, net of tax are recorded in net assets, and the moving average method is used to calculate the cost of securities sold.)

· BRIDGESTONE POZNAN SP. Z O.O.

· BRIDGESTONE UK LTD.

- · BRIDGESTONE FRANCE S.A.S.
- · BRIDGESTONE ITALIA S.P.A.
- · BRIDGESTONE HISPANIA S.A.
- \cdot BRIDGESTONE (CHINA) INVESTMENT CO., LTD.
- · BRIDGESTONE ASIA PACIFIC PTE. LTD.
- · THAI BRIDGESTONE CO., LTD.
- · BRIDGESTONE TIRE MANUFACTURING (THAILAND) CO., LTD.
- P.T. BRIDGESTONE TIRE INDONESIA
- · BRIDGESTONE AUSTRALIA LTD.
- · BRIDGESTONE MIDDLE EAST & AFRICA FZE.
- · BRIDGESTONE SOUTH AFRICA (PTY) LTD.
- · BRIDGESTONE C.I.S. LLC
- · BRIDGESTONE EARTHMOVER TYRES PTY. LTD.
- · FIRESTONE POLYMERS, LLC
- BRIDGESTONE NATURAL RUBBER (THAILAND) CO., LTD.
- · FIRESTONE BUILDING PRODUCTS COMPANY, LLC
- · BRIDGESTONE FINANCE EUROPE B.V.

(2) Valuation policies and methods for derivatives In principle, fair value.

(3) Valuation policies and methods for inventories

Inventories are substantially stated at lower of cost determined by the moving-average method or net selling value. Meanwhile, inventories held by subsidiaries in the Americas are substantially stated at the lower of cost, which is determined principally by the last-in, first-out method, or market.

(4) Depreciation method for fixed assets

For tangible fixed assets, the declining-balance method is used at BRIDGESTONE CORPORATION (the "Company") and its domestic subsidiaries, and the straight-line method is used at its overseas subsidiaries.

For intangible fixed assets, the straight-line method is used.

(5) Accounting policies for reserves and allowances

a) Allowance for doubtful accounts

In order to reserve for loss from the nonpayment of claims, the actual credit loss rate is used to calculate the amount to be recorded for general claims, and for designated claims for which there is a concern of nonpayment, an amount based on the evaluation of potential loss in the receivables outstanding is recorded.

b) Provision for sales returns

Principally, in order to provide for future losses on the return of snow tires, historical losses are used to estimate the amount of future, and that amount is recorded.

c) Accrued pension and liability for retirement benefits

In order to reserve for retirement benefits for employees, an amount based on the estimated amount of projected benefit obligations and pension plan assets as of the fiscal year end is recorded. Prior-service cost is treated as an expense using the straight-line method over a fixed number of years based on the average remaining years of service of the employees in the year in which the prior service costs occur (10 years for the Company and its domestic subsidiaries, 3 to 12 years for its overseas subsidiaries).

Actuarial gain/loss at the Company and its domestic subsidiaries is treated as an expense using the straight-line method over a fixed number of years (10 years) based on the average remaining years of service of the employees in the year in which the gain/loss occurs, recorded from the following year. For certain of its overseas subsidiaries, unrecognized actuarial gain/loss at the beginning of the fiscal year that exceed 10% of the larger of retirement benefit obligations or pension plan assets is treated as an expense using the straight-line method over a fixed number of years (8 to 12 years) based on the average remaining years of service of the employees.

In addition, at certain subsidiaries in the Americas, an estimated total amount of expenses for postretirement benefits in addition to pensions is allotted based on the number of years of service provided by the employees.

At certain overseas subsidiaries, unrecognized amounts of actuarial gain/loss not yet treated as expenses are recorded as "Postretirement liability adjustments for foreign consolidated companies" under accumulated other comprehensive income in a separate component of net assets on the balance sheet.

d) Warranty reserve

Warranty reserve is estimated and recorded at the time of sale to provide for future potential costs, such as costs related to after-sales services, in amounts considered to be appropriate based on past experience of the Company and its subsidiaries (collectively, the "Companies").

e) Provision for environmental remediation

In order to reserve for outlays for legally required removal and disposal of asbestos, etc., an estimated amount of future obligations is recorded.

(6) Accounting policies for the translation of foreign currency-denominated assets and liabilities into yen

Monetary receivables and payables denominated in foreign currencies are translated into Japanese

yen at the exchange rate at the consolidated balance sheet date. The foreign currency exchange gain and loss from translation are recognized in income.

Assets and liabilities of the Company's overseas subsidiaries are translated into Japanese yen at the current exchange rate at the balance sheet date. Revenue and expense accounts of the Company's overseas subsidiaries are translated into Japanese yen at the average annual exchange rate. Differences arising from such translation are shown as foreign currency translation adjustments and minority interests in a separate component of net assets.

(7) Hedge accounting

a) Hedge accounting method

Deferred hedge accounting is applied. Designation accounting is used for forward foreign exchange and foreign currency swaps that meet the requirements for designation accounting, and exceptional accounting is used for interest rate swaps that meet the requirements for exceptional accounting.

b) Hedging instrument and items covered

<u>Instruments</u> <u>Items covered</u>

Forward foreign exchange contracts

Foreign currency-denominated monetary claims and obligations, and scheduled foreign currency-denominated transactions

Foreign currency swaps Borrowings and bonds

Interest rate swaps Borrowings
Commodity swaps Raw materials

c) Hedging policy

Forward foreign exchange transactions are used only to cover actual foreign exchange needs, and foreign exchange swaps are made to match the principal amount and term of the hedged foreign currency-denominated obligation. Interest rate swaps are entered into for the amount of borrowings only. Commodity swaps are entered into for the trade amount of raw materials. It is the Companies' policy not to use any derivative transactions for speculative purposes.

d) Method for evaluating the effectiveness of hedges

The validity of hedges is evaluated based on a comparison of total fluctuations in the cash flow or fluctuations in the market value of the hedged item with the total fluctuations in the cash flow or fluctuations in the market value of the hedging instrument. However, for items covered by designation or exceptional accounting, the validity of the hedge is not evaluated.

(8) Amortization of goodwill

Goodwill is amortized using the straight-line method over the period for which it is deemed to have effect, but not to exceed 20 years.

(9) Other significant items related to the preparation of consolidated financial statements

Accounting treatment of consumption tax

Consumption tax and local consumption taxes are excluded.

(Additional Information)

Application of the "Accounting Standard for Accounting Changes and Error Corrections" and other

For accounting changes and corrections of prior period errors which are made from the beginning of the current fiscal year, the Companies have applied the "Accounting Standard for Accounting Changes and Error Corrections" (Accounting Standards Board of Japan(the "ASBJ") Statement No. 24 of December 4, 2009) and "Guidance on Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Guidance No. 24 of December 4, 2009).

(Notes to the consolidated balance sheets)

1. Accumulated depreciation of tangible fixed assets

2,030,296 million yen

2. Assets provided as collateral and collateralized debt obligations

Assets pledged as collateral (Inventories and others)

Obligations corresponding to the preceding

Character bank borrowings

Long-term bank borrowings

4,484 million yen

3. Guarantees

Guarantees on employees' bank borrowings

10 million yen

4. Balance of trade notes (without letter of credit) discounted

1,379 million ven

(Notes to the consolidated statement of income)

1. Gain on sales of tangible fixed assets

Gain on sales of tangible fixed assets mainly consists of gain on sales of land.

2. Impairment loss

The Companies group their assets for business in accordance with the classifications used for internal management. Assets to be disposed (assets that the Companies plan to dispose of through scrapping or sale) and idle assets are grouped on an individual basis.

In the current period, for assets for business whose profitability has declined, assets to be disposed through planned scrapping or sale, and idle assets that are not expected to be used in the future, the carrying amounts were reduced to the recoverable amounts. As a result, the Companies recognized an impairment loss of 14,024 million yen as extraordinary loss. The loss consists of 4,260 million yen for machinery, equipment, and vehicles; 3,430 million yen for buildings and structures and 6,333 million yen for others.

| | Other | | |

The recoverable amounts of assets for business are measured by value in use, which is calculated by discounting future cash flows at a discount rate of 4.3% to 7.5%. The recoverable amounts of assets to be disposed and idle assets are measured at the net selling price. Assets to be scrapped are evaluated at memorandum value, and assets to be sold and idle assets are evaluated at the estimated selling price and other.

3. Loss on business withdrawal

As a result of the decision to withdraw from the electronic paper business, related losses have been recorded.

(Notes to the consolidated statement of changes in Net Assets)

1. Type and total number of shares issued / Type and number of treasury stock

| | As of December 31, 2011 | Increase | Decrease | As of December 31, 2012 |
|---|-------------------------------|----------|----------|-------------------------------|
| Number of shares issued Common stock (Thousands of shares) | 813,102 | - | - | 813,102 |
| Treasury stock Common stock (Thousands of shares) (see Notes 1 and 2) | 30,441 | 5 | 6 | 30,440 |

Notes 1: The increase of treasury stock consists of the purchase of 5 thousand shares according to the requests from the shareholders who have odd-lot shares.

2. Dividends

(1)Dividend payments

| (r)Dividend payments | | | | | |
|--|--------------|-----------------------------------|-----------------------|----------------------|----------------------|
| Resolution | Type | Total dividends (Yen in millions) | Dividend per share | Record date | Effective date |
| Annual Shareholders' Meeting, March 27, 2012 | Common Stock | 9,391 | ¥12 | December 31, 2011 | March 28, 2012 |
| Board of Directors, August 7, 2012 | Common Stock | 12,522 | ¥16 | June 30, 2012 | September 3, 2012 |

(2)Dividends whose record date is in the current year and effective date is in the following fiscal year

| Resolution | Туре | Total dividends (Yen in millions) | Source | Dividend per share | Record date | Effective date |
|--|-----------------|---|-------------------|-----------------------|----------------------|-------------------|
| Annual Shareholders' Meeting, March 26, 2013 | Common Stock | 12,522 | Retained earnings | ¥16 | December 31, 2012 | March 27, 2013 |

^{3.} The category and number of shares to be allocated to stock acquisition rights at fiscal year end (excluding those that the first day of their exercise periods has not arrived)

Common stock: 1,353,500 shares

Notes 2: The decrease of treasury stock consists of 6 thousand shares used for the exercise of stock options and other.

(Notes to financial instruments)

- 1. Qualitative information on financial instruments
- (1) Policies for using financial instruments

The Companies raise the necessary funds mainly by bank borrowings or issuance of bonds based on funding requirements of their business activities. The Companies invest temporary cash surpluses only in highly secured financial instruments. The Companies follow the policy of using derivative financial instruments not for speculative purposes, but for managing financial risks as described later.

(2) Details of financial instruments used and the exposures to risk

Receivables, such as notes and accounts receivable, are exposed to customer credit risk. Receivables in foreign currencies are exposed to foreign currency exchange fluctuation risk. Marketable securities consist primarily of the reservation of receivables liquidation which are exposed to customer credit risk or certificate of deposit regarded as marketable securities in accordance with the accounting principles generally accepted in the United States of America. Investments in securities consist primarily of equity securities of business partners and are exposed to market price fluctuation risk.

Payment terms of payables, such as notes and accounts payable are approximately less than one year. Payables in foreign currencies are exposed to foreign currency exchange fluctuation risk. Borrowings, bonds, and obligations under finance leases are mainly for the purpose of obtaining working capital and preparing for capital expenditures. Some of them with floating interest rates are exposed to interest rate fluctuation risk.

Derivative transactions consist of the use of foreign currency forward contracts and currency option contracts for the purpose of hedging foreign currency exchange fluctuation risk on receivables, payables, and forecasted transactions in foreign currencies, currency swap contracts for the purpose of hedging foreign currency exchange fluctuation risk and interest rate fluctuation risk on loans, borrowings and bonds in foreign currencies, interest rate swap contracts for the purpose of hedging interest rate fluctuation risk on borrowings, and commodity swap contracts for the purpose of hedging commodity price fluctuation risk. Hedging instruments and hedged items, hedge policy, assessment method for hedge effectiveness, and others related to hedge accounting, are described in "Basic important matters for preparation of consolidated financial statements (7) Hedge accounting".

(3) Risk management of financial instruments

a. Management of credit risk

The Companies regularly monitor the financial position of significant customers and manage the due dates and the receivables balance of each customer to minimize the risk of defaults resulting from deterioration of a customers' financial position.

The Companies enter into derivative transactions only with highly rated financial institutions in order to minimize counterparty risk.

The maximum credit risk in December 31, 2012, is represented by the book value of the financial instruments exposed to credit risk on the consolidated balance sheets.

b. Management of market risk

The Company and certain of its subsidiaries use principally foreign currency forward contracts to hedge foreign currency exchange fluctuation risk identified by currency and monthly basis for receivables and payables in foreign currencies; and when receivables and payables in foreign currencies are expected from forecasted transactions, foreign currency forward contracts and currency option contracts may be used. In addition, currency swap contracts are used to hedge foreign currency exchange fluctuation risk and interest rate fluctuation risk on loans, borrowings and bonds in foreign currencies, interest rate swap contracts are used to hedge interest rate fluctuation risk on borrowings, and commodity swap contracts are used to hedge commodity price fluctuation risk.

With respect to marketable and investment securities, the Company regularly monitors fair market values and financial positions of the issuers, those who have business relations, and appropriately reviews the status of these securities considering the relationships with the issuers.

Derivative transactions are carried out under internal regulations by the responsible divisions, and details of transactions are reported to the responsible corporate officers.

c. Management of liquidity risk in financing activities

The Companies practice money management effectively by recognizing the fund position beforehand based on cash flow projection. The Companies also strive to diversify sources of financing in order to reduce liquidity risk.

(4) Supplementary explanation on fair value of financial instruments

Fair values of financial instruments include market prices and values calculated reasonably when there is no market price. Since variable factors are incorporated in calculating the relevant fair values, it may change depending on the different assumptions.

2. Fair values of financial instruments

Carrying amounts of consolidated balance sheets, fair value, and unrealized gain/loss of the financial instruments as of December 31, 2012, are as follows. Financial instruments whose fair values are not readily determinable are excluded from the following table (see Note 2):

| | Carrying amounts of | | |
|--|-----------------------------|-----------------|-----------------|
| | consolidated balance sheets | Fair value | Difference |
| | Yen in millions | Yen in millions | Yen in millions |
| (1) Cash and deposits | 226,162 | 226,162 | _ |
| (2) Notes and accounts receivable | 444,669 | | |
| Allowance for doubtful accounts (*1) | (8,074) | | |
| | 436,594 | 436,594 | _ |
| (3) Marketable and investment securities | 335,445 | 335,445 | _ |
| Total | 998,202 | 998,202 | _ |
| (1) Notes and accounts payable | 168,568 | 168,568 | _ |
| (2) Short-term borrowings | 182,821 | 182,821 | _ |
| (3) Commercial paper | 40,435 | 40,435 | |
| (4) Income taxes payable | 55,827 | 55,827 | |
| (5) Accounts payable-other | 149,543 | 149,543 | _ |
| (6) Bonds | 124,094 | 124,862 | (768) |
| (7) Long-term borrowings | 262,330 | 273,099 | (10,769) |
| Total | 983,619 | 995,157 | (11,537) |
| Derivative transactions (*2) | (7,411) | (7,411) | _ |

^(*1) It comprises the allowance for doubtful accounts in respect to notes and accounts receivable, short-term loan receivable, and others.

Notes

1. Calculation method of fair values of financial instruments

<u>Assets</u>

(1) Cash and deposits (2) Notes and accounts receivable

The fair values approximate book values because of their short-term maturities.

(3) Marketable and investment securities

The fair values of the reservation of receivables liquidation are based on values calculated reasonably, the fair values of equity securities are based on the market prices at the stock exchanges, and the fair values of bonds are based on the market prices at the stock exchanges or on the prices disclosed by financial institutions. In addition, the fair value of certificate of deposits approximates book value because of its short-term maturity.

Liabilities

(1) Notes and accounts payable, (2) Short-term borrowings, (3) Commercial paper, (4) Income taxes payable, and (5) Accounts payable-other

The fair values approximate book values because of their short-term maturities.

(6) Bonds

The fair values of bonds with the market prices are based on the market prices. The fair values of bonds without the market prices are determined by discounting the aggregated values using an assumed interest rate, taking account of the credit exposure and maturities.

^(*2) Receivables and payables arising from derivative transactions are presented in net. If the net amount is a liability, it is written in parentheses ().

(7)Long-term borrowings

The fair values of long-term bank borrowings are determined by discounting the aggregated values of the principal and interest using an assumed interest rate if the same type of them were newly made.

Derivative transactions

The fair value of derivative transactions is measured at the quoted price principally obtained from financial institutions, etc.

2. Financial instruments whose fair values are extremely difficult to calculate

Carrying amounts of consolidated balance sheets
Yen in millions

Investments in affiliates
Available-for-sale securities
Unlisted equity securities
1,962

It is extremely difficult to calculate their fair values because there is no market price. Therefore, these items are not included in "(3) Marketable and investment securities".

(Notes to per-share information)

Total net assets per share 1,755.60 yen
Net income per share 219.26 yen

(Changes in presentation)

Consolidated Statement of Cash Flows

"Amortization of goodwill" which was included in "depreciation and amortization" in the previous fiscal year, is disclosed separately from the current fiscal year.

Notes

1. Definition of cash and cash equivalents for Consolidated Statement of Cash Flows

Cash and cash equivalents included in the consolidated statement of cash flows consist of cash on hand, deposits that can be withdrawn at any time or are easily convertible, and short-term investments maturing within three months from the date of acquisition and for which the risk from price movements is deemed negligible.

2. Reconciliation between cash and cash equivalents at fiscal year end and amount shown in Consolidated Balance Sheet

| Cash and deposits — Consolidated Balance Sheet | 226,162 million yen |
|--|---------------------|
| Short-term investments | 124,010 |
| Total | 350,172 |
| Time deposits, bonds, etc., with terms of more than three months | (80,756) |
| Cash and cash equivalents —Consolidated Statement of Cash Flows | 269,416 |

Notes to Non-consolidated Financial Statements

(Significant Accounting Policies)

- 1. Valuation policies and methods for Assets
 - (1) Valuation policies and methods for investments in securities

Investments in subsidiaries and affiliates —the moving average cost method

Available-for-sale securities

With market value — Fair value based on the market price, etc., at the fiscal

year end. (Unrealized gain and loss, net of tax are recorded in net assets, and the moving average method is

used to calculate the cost of securities sold.)

Without market value — Primarily the moving average cost method.

(2) Valuation policies and methods for derivatives

Fair value

(3) Valuation policies and methods for inventories

Inventories are substantially stated at lower of cost determined by the moving-average method or net selling value.

- 2. Depreciation method for fixed assets
 - (1) Tangible fixed assets

The declining-balance method

(2) Intangible fixed assets

The straight-line method

- 3. Accounting policies for reserves and allowances
 - (1) Allowance for doubtful accounts

In order to reserve for loss from the nonpayment of claims, the actual credit loss rate is used to calculate the amount to be recorded for general claims, and for designated claims for which there is a concern of nonpayment, an amount based on the evaluation of potential loss in the receivables outstanding is recorded.

(2) Accrued pension and liability for retirement benefits

In order to reserve for retirement benefits for employees, an amount based on the estimated amount of projected benefit obligations and pension plan assets as of the fiscal year end is recorded.

Prior-service cost is treated as an expense using the straight-line method over a fixed number of years (10 years) within the average remaining years of service of the employees in the year in which the prior-service costs occur.

Actuarial gain/loss is treated as an expense using the straight-line method over a fixed number of years (10 years) within the average remaining years of service of the employees in the year in which the gain/loss occurs, recorded from the following year.

(3) Provision for environmental remediation

In order to reserve for outlays for legally required removal and disposal of asbestos, etc., an estimated amount of future obligations is recorded.

4. Accounting policies for the translation of foreign currency-denominated assets and liabilities into yen Monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rate at the balance sheet date. The foreign currency exchange gain and loss from translation are recognized in income.

5. Hedge accounting

(1) Hedge accounting method

Deferred hedge accounting is applied. Designation accounting is used for forward foreign exchange and foreign currency swaps that meet the requirements for designation accounting, and exceptional accounting is used for interest rate swaps that meet the requirements for exceptional accounting.

(2) Hedging methods and items covered

<u>Instruments</u> <u>Items covered</u>

Forward foreign exchange contracts Foreign currency-denominated monetary claims and obligations, and scheduled

foreign currency-denominated transactions

Foreign currency swaps Borrowings and bonds

Interest rate swaps Borrowings
Commodity swaps Raw materials

(3) Hedging policy

Forward foreign exchange transactions are used only to cover actual foreign exchange needs, and foreign exchange swaps are made to match the principal amount and term of the hedged foreign currency-denominated obligation. Interest rate swaps are entered into for the amount of borrowings only. Commodity swaps are entered into for the trade amount of raw materials. It is the Company's policy not to use any derivative transactions for speculative purposes.

(4) Method for evaluating the validity of hedges

The effectiveness of hedges is evaluated based on a comparison of total fluctuations in the cash flow or fluctuations in the market value of the hedged item with the total fluctuations in the cash flow or fluctuations in the market value of the hedging instrument. However, for items covered by designation or exceptional accounting, the effectiveness of the hedge is not evaluated.

6. Accounting treatment of consumption tax

Consumption tax and local consumption taxes are excluded. Suspense consumption tax paid and received are offset and net amount is recorded within accounts receivable-other in current assets.

(Changes in Presentations)

Non-consolidated Statements of Income

"Gain on sales of tangible fixed assets", which was presented separately in the previous fiscal year, is included in "other" of Non-operating Income in the current fiscal year, because the materiality was decreased. The amount of "Gain on sales of tangible fixed assets" in current fiscal year is 767 million yen.

(Additional Information)

Application of the "Accounting Standard for Accounting Changes and Error Corrections" and other For accounting changes and corrections of prior period errors which are made from the beginning of the current fiscal year, the Company has applied the "Accounting Standard for Accounting Changes and Error Corrections" (Accounting Standards Board of Japan(the "ASBJ") Statement No. 24 of December 4, 2009) and "Guidance on Accounting Standard for Accounting Changes and Error Corrections" (ASBJ Guidance No. 24 of December 4, 2009).

(Notes to the non-consolidated balance sheet)

1. Accumulated depreciation of tangible fixed assets

1,010,746 Million Yen

2. Guarantee

| Guarantees on corporate bonds issued by BRIDGESTONE | 14,037 Million Yen |
|--|----------------------|
| FINANCE EUROPE B.V., | |
| (Euro-US dollar denominated straight corporate bond) | (14,037 Million Yen) |
| Guarantees on commercial papers issued by BRIDGESTONE | 40,435 Million Yen |
| EUROPE NV/SA | |
| Guarantees on bank borrowings of employees in consolidated | 110 Million Yen |
| subsidiary (mortgages), etc. | |
| Total | 54,582 Million Yen |

3. Balance of trade notes (without letter of credit) discounted

612 Million Yen

 Short-term monetary receivables from subsidiaries and affiliates Long-term monetary receivables from subsidiaries and affiliates Short-term monetary payables to subsidiaries and affiliates 283,797 Million Yen 11,488 Million Yen 71,664 Million Yen

(Notes to the non-consolidated statement of income)

1. Transactions with subsidiaries and affiliates

Sales 660,864 Million Yen
Purchase, etc. 273,611 Million Yen
Transactions other than operating transactions 53,232 Million Yen

2. Impairment loss

The Company groups its assets for business in accordance with the classifications used for internal management. Assets to be disposed (assets that the Company plans to dispose of through scrapping or sale) and idle assets are grouped on an individual basis.

In the current period, for assets for business whose profitability has declined, assets to be disposed through planned scrapping or sale, and idle assets that are not expected to be used in the future, the carrying amounts were reduced to the recoverable amounts. As a result, the Company recognized an impairment loss of 13,160 million yen as extraordinary loss. The loss consists of 3,814 million yen for machinery and equipment, 2,942 million yen for buildings, and 6,403 million yen for others.

| Use | Classification | Location | Amount (Yen in millions) |
|-----------------------|---|--------------------|-----------------------------|
| Assets for business | Buildings Machinery and equipment Other | Iwata, Shizuoka | 3,938 |
| Assets to be disposed | Land Machinery and equipment Other | Iwata, Shizuoka | 6,012 |
| Idle asses | Machinery and equipment | Seki, Gifu | 3,209 |

The recoverable amounts of assets for business are measured by value in use, which is calculated by discounting future cash flows at a discount rate of 7.5%. The recoverable amounts of assets to be disposed and idle assets are measured at the net selling price. Assets to be scrapped are evaluated at memorandum value, and assets to be sold and idle assets are evaluated at the estimated selling price and other.

3. Loss on business withdrawal

As a result of the decision to withdraw from the electronic paper business, related losses have been recorded.

4. Loss on business of subsidiaries and affiliates

As a result of the Evaluation of Business Areas and taking into consideration of the financial condition of subsidiaries and affiliates, related losses have been recorded.

(Notes to the non-consolidated statement of changes in net assets)

Type and number of treasury stock

| | As of December 31, 2011 | Increase | Decrease | As of December 31, 2012 |
|------------------------------------|-------------------------|----------|----------|-------------------------|
| Common stock (Thousands of shares) | 30,436 | 5 | 6 | 30,436 |

Note 1: The increase of treasury stock consists of the purchase of 5 thousand shares according to the requests from the shareholders who have odd-lot shares.

2: The decrease of treasury stock consists of 6 thousand shares used for the exercise of stock option and others.

(Notes to deferred income tax)

| Deferred tax assets | | | |
|--|----------------------|--|--|
| Accrued pension and liability for retirement benefits | 8,965 Million Yen | | |
| Investments in subsidiaries and affiliates (related to the | 12,602 | | |
| restructuring of European operations) | | | |
| Depreciable assets | 13,261 | | |
| Other | 27,936 | | |
| Deferred tax assets sub-total | 62,765 | | |
| Valuation allowance | (21,952) | | |
| Deferred tax assets total | 40,812 | | |
| Deferred tax liabilities | | | |
| Reserve for advanced depreciation of fixed assets | (11,670) Million Yen | | |
| Net unrealized gain on available-for-sale securities | (36,993) | | |
| Other | (606) | | |
| Deferred tax liabilities total | (49,270) | | |
| Deferred tax liabilities total, net | (8,457) | | |

(Notes to transactions with related parties)

Subsidiaries and affiliates, etc.

| Attribute | Company name | Percentage of ownership | Relationship with counter party | Details of transaction | Transaction amount (Yen in millions) (Note) 1 | Account item | Ending balance (Yen in millions) (Note) 1 |
|------------|---|----------------------------------|--|---|---|--|---|
| Subsidiary | BRIDGESTONE TIRE JAPAN CO., LTD | Direct ownership 100.00% | Sales of the Company's products Officers serving concurrently | Sales of the Company's products (Note) 2 | 171,041 | Trade Accounts receivable | 68,545 |
| Subsidiary | BRIDGESTONE FINANCE CORPORATION | Direct ownership 100.00% | Lending, borrowing and others Officers serving concurrently | Lending (Note) 3 | 32,116 | Short-term loans for subsidiaries and affiliates | 24,578 |
| Subsidiary | BRIDGESTONE AMERICAS TIRE OPERATIONS, LLC | Indirect ownership 100.00% | Sales of the Company's products, etc. Officers serving concurrently | Sales of the Company's products (Note) 2 | 88,292 | Trade Accounts receivable | 24,417 |
| Subsidiary | BRIDGESTONE EUROPE NV/SA | Direct ownership 100.00% | Sales of the Company's products, etc. Officers serving concurrently | Sales of the Company's products (Note) 2 Debt guarantee | 64,523 40,435 | Trade Accounts receivable — | 23,692 |
| Subsidiary | BRIDGESTONE C.I.S, LLC | Direct ownership 100.00% | Sales of the Company's products Officers serving concurrently | Sales of the Company's products (Note) 2 | 24,836 | Trade Accounts receivable | 21,099 |

Transaction conditions and policies for determination on transaction conditions, etc. (Notes)

- 1. Consumption tax is not included in the transaction amounts, but is included in the ending balances.
- 2. The sales price is determined based on the market price.
- 3. The interest rates are determined based on the market.

 The transaction amount is the average balance in the current fiscal year.

(Notes to per-share information)

Total equity per share 1,585.50 Yen
Net income per share 117.50 Yen

INDEPENDENT AUDITOR'S REPORT

February 14, 2013

| To the Board of Directors of |
|------------------------------|
| Bridgestone Corporation: |

Deloitte Touche Tohmatsu LLC Designated Unlimited Liability Partner, Engagement Partner, Certified Public Accountant: Osami Yoshida Designated Unlimited Liability Partner, Engagement Partner, Certified Public Accountant: Kohei Kan Designated Unlimited Liability Partner, Engagement Partner, Certified Public Accountant: Yasuhiko Haga Designated Unlimited Liability Partner, Engagement Partner, Certified Public Accountant: Masashi Aizawa

Pursuant to the fourth paragraph of Article 444 of the Companies Act, we have audited the consolidated financial statements, namely, the consolidated balance sheet as of December 31, 2012 of Bridgestone Corporation (the "Company") and its consolidated subsidiaries, and the related consolidated statements of income and changes in net assets for the fiscal year from January 1, 2012 to December 31, 2012, and the related notes.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

(TRANSLATION)

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Audit Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company and its consolidated subsidiaries as of December 31, 2012, and the results of their operations for the year then ended in conformity with accounting principles generally accepted in Japan.

Interest

Our firm and the engagement partners do not have any interest in the Company for which disclosure is required under the provisions of the Certified Public Accountants Act.

The above represents a translation, for convenience only, of the original report issued in the Japanese language.

Board of Corporate Auditors Meeting Audit Report

Audit Report

With respect to the performance of the Members of the Board of their duties during the 94th business year (from January 1, 2012 to December 31, 2012), the Board of Corporate Auditors has prepared this audit report after deliberations based on the audit reports prepared by each Corporate Auditor, and hereby report as follows:

1. Method and Contents of Audit by the Corporate Auditors and the Board of Corporate Auditors

The Board of Corporate Auditors has established the audit policies, assignment of duties and other matters, and received a report from each Corporate Auditor regarding the status of implementation of their audits and results thereof. In addition, the Board of Corporate Auditors has received reports from the Members of the Board, other relevant personnel, and the Independent Auditors regarding the status of performance of their duties, and requested explanations as necessary. In conformity with the Corporate Auditor auditing standards established by the Board of Corporate Auditors, and in accordance with the audit policies, assignment of duties and other relevant matters, each Corporate Auditor endeavored to facilitate a mutual understanding with the Members of the Board, the internal audit division, employees and other relevant personnel, endeavored to collect information and maintain and improve the audit environment, has attended the Board of Directors and other important meetings, received reports on the status of performance of duties from the Members of the Board and other relevant personnel and requested explanations as necessary, examined important approval/decision documents, and inspected the status of the corporate affairs and assets at the head office and other principal business locations. Also, each Corporate Auditor received reports regularly from the Member of the Board, employees and other relevant personnel and requested explanations from them as necessary, and expressed their opinions regarding the status of the establishment and operation of the contents of the Board of Directors' resolutions regarding the development and maintenance of the system to ensure that the performance of the Members of the Board of their duties as described in the business report complied with all laws, regulations and the Articles of Incorporation of the Company and other systems that are set forth in Article 100, paragraphs 1 and 3 of the Ordinance for Enforcement of the Companies Act of Japan as being necessary for ensuring the appropriateness of the corporate affairs of a joint stock company (kabushiki kaisha), and the systems (internal control systems) based on such resolutions. With respect to the subsidiaries, each Corporate Auditor endeavored to facilitate a mutual understanding and exchanged information with the Members of the Board and Corporate Auditors and other relevant personnel of each subsidiary and received from subsidiaries reports on their respective

business as necessary. Based on the above-described methods, each Corporate Auditor examined the business report and its supplemental schedules for the business year under consideration.

In addition, each Corporate Auditor monitored and verified whether the Independent Auditors maintained their independence and properly conducted their audits, received a report from the Independent Auditors on the status of performance of duties, and requested explanations as necessary. Each Corporate Auditor was notified by the Independent Auditors that it had established a "system to ensure that the performance of the duties of the Independent Auditors were properly conducted" (the matters listed in the items of Article 131 of the Company Accounting Regulations) in accordance with the "Quality Control Standards for Audits" (Business Accounting Council on October 28, 2005) and requested explanations as necessary. Based on the above-described methods, each Corporate Auditor examined the non-consolidated financial statements (the non-consolidated balance sheet, the non-consolidated statements of income, the non-consolidated statement of changes in net assets and notes to the non-consolidated financial statements) and their supplemental schedules thereto, as well as the consolidated financial statements (the consolidated balance sheet, the consolidated statements of income, the consolidated statement of changes in net assets and notes to the consolidated financial statements) for the business year under consideration.

2. Results of Audit

- (1) Results of Audit of Business Report and Other Relevant Documents
- (i) We acknowledge that the business report and its supplemental schedules thereto fairly present the status of the Company in conformity with the applicable laws, regulations and the Articles of Incorporation of the Company.
- (ii) We acknowledge that no misconduct or material fact constituting a violation of any law, regulation or the Articles of Incorporation of the Company was found with respect to the performance of the Members of the Board of their duties.
- (iii) We acknowledge that the Board of Directors' resolutions with respect to the internal control systems are appropriate. In addition, we did not find any matters to be mentioned with respect to the description in the business report and the performance of the Members of the Board of their duties concerning the internal control systems.
- (2) Results of Audit of Non-consolidated Financial Statements and their Supplemental Schedules

We acknowledge that the methods and results of audit performed by the Independent Auditors, Deloitte Touche Tohmatsu LLC, are appropriate.

(3) Results of Audit of Consolidated Financial Statements

We acknowledge that the methods and results of audit performed by the Independent

Auditors, Deloitte Touche Tohmatsu LLC, are appropriate.

Topics

Environmental Initiatives

Announcement of Concept Tire of 100% Sustainable Materials

In its long-term environmental vision, the Bridgestone Group has defined the goal of working "towards 100% sustainable materials*" usage. As one of its initiatives for achieving this goal, the Group developed a concept tire of "100% sustainable materials*." Made entirely from sustainable materials, this tire is a culmination of Bridgestone's material technologies. As a next step in the process, the Bridgestone Group will establish a framework for research and development and create necessary core technologies as it prepares for the mass production of this tire. Bridgestone will make a decision of practical use of this tire by 2020.

* Materials that are not expected to become depleted as a result of consumption, as opposed to fossil resources and other limited resources (Bridgestone Group's definition)

Successful Development of Technology for Ultra-fuel-efficient Tire Rubber

Bridgestone has developed an innovative new hierarchical nano architecture technology as one phase of the Nanotech Advanced Component Utilization Research and Development project*1 being promoted by NEDO*2.

This technology in turn enabled Bridgestone to successfully develop rubber that reduces energy loss by over 40% and improves abrasion resistance by more than 25% in comparison to the rubber currently used in its full-efficient tires. In the future, we will combine this technology with our proprietary "NanoPro-Tech" technology, and adapt it for use in the development of rubber for fuel-efficient tires.

- *1. A research and development project that involved the establishment of a cooperative system consisting of organizations that possess nano technologies (universities, material manufacturers, etc.) and organizations aiming to put these technologies into practical use (product manufacturers, etc.), thereby forming a vertical link across the supply chain
- *2. New Energy and Industrial Technology Development Organization

Technologies for Improving Productivity of Natural Rubber Decoding of Genome Sequence of Para Rubber Tree and Development of Disease Diagnostic Technology

Bridgestone has decoded the genome sequence of the Para rubber tree, which is the source of a large majority of natural rubber resources. Moreover, the Company has successfully developed a scientifically-grounded disease diagnostic technology for these trees*. The Company intends to utilize these findings to accelerate the development of technologies for improving the productivity of natural rubber. Ways in which this will be accomplished include accurately selecting Para rubber trees that will yield large volumes of high-quality latex,

cultivating trees that are resistant to diseases, and quickly identifying diseased trees.

* Disease diagnostic technology developed in cooperation with NEDO

Safety and Reassurance Initiatives

Delivery of Elastomeric Seismic Isolation Bearings

Completion of Preservation and Restoration of JR-East's Tokyo Station Marunouchi Building

A total of 352 of Bridgestone's elastomeric seismic isolation bearings were delivered to be used during the construction process for preserving and restoring East Japan Railway Company's Tokyo Station Marunouchi Building, which was completed in October 2012. Bridgestone works to create bearings that feature high levels of quality and performance by adapting and applying the sophisticated technologies it has accumulated during its tire manufacturing operations. Through these efforts, we will continue striving to make buildings safer and provide people with peace of mind.

Strengthening Strategic Products and Businesses

Truck and Bus Tire Manufacturing Technology Using Retread Technologies Development of "TRISAVER"

Bridgestone has developed a new truck and bus tire manufacturing technology that will result in both significant resource conservation and enhanced fuel efficiency. The new technology, which was created by modifying the process of retreading tires, is called "TRISAVER", a reference to the three types of savings it enables: savings of costs, resources, and CO₂ emissions.

System for Monitoring Tire Pressure and Temperature for Mining Vehicles Launch of "B-TAG"

Bridgestone has launched "B-TAG" (Bridgestone Intelligent Tag), a system that measures tire pressure and temperature of off-the-road radial tires for construction and mining vehicles in use and then reports this data to drivers and managers of mine operations in real time. The system will help mine operators create a safer working environment and facilitate more efficient operations.

Integrating and Expanding Business Areas

Opening Ceremony of New Plant in India

Bridgestone held a ceremony marking the grand opening of the Pune Plant, the Company's second production site in India. The Pune Plant began producing passenger car tires in January 2013, and will begin producing truck and bus tires during the second half of 2013. Leveraging this new plant, Bridgestone will work to strengthen its systems for supplying tires to the Indian market, where tire demand is expected to grow substantially into the future.

Introducing Our New Product Lineup

New Standard Passenger Tire Brand

NEXTRY

In February 2013, Bridgestone has launched its new "NEXTRY" brand of passenger tires. In creating these tires, Bridgestone pursued high levels of wet performance, abrasion resistance, and other basic features expected of tires while also working to improve dry performance and comfort. Further, as all sizes of these tires contribute to improved fuel efficiency, they have been incorporated into our lineup of fuel efficient tires, which includes "ECOPIA" and other prominent brands. In this way, we have made fuel efficient tires available to an even wider range of customers. All sizes of "NEXTRY" tires have achieved a grade of "A-c" under the labeling system*.

* The labeling system is described in the Japan Automobile Tire Manufacturers Association's Guideline for tire labeling to promote the use of fuel efficient tires, which is the industry standard. Tires are assigned a rank consisting of an upper case letter that corresponds to their performance with regard to rolling resistance and a lower case letter that represents their wet grip performance. Tires that achieve a grade of "A-d" or higher are defined as "fuel efficient tires" by the guidelines.

Fuel Efficient Tires for Electric Vehicles

ECOPIA EV-01

In November 2012, Bridgestone introduced a new addition to its line of "ECOPIA" fuel efficient tires, the "ECOPIA EV-01" fuel efficient tire for electric vehicles. This tire employs Bridgestone's proprietary "NanoPro-Tech" material technology and features a specialized design created in consideration of the characteristics of electric vehicles. This enables it to achieve high levels of fuel efficiency (efficient electricity use), thereby contributing to extended driving range. At the same time, "ECOPIA EV-01" tires are both extremely quiet and highly resistant to abrasion. These tires have achieved a grade of "AA-c" under the labeling system.

Smoother Handling, Higher Enjoyment, and Greater Safer

BATTLAX SPORT TOURING T30

In February 2013, Bridgestone launched the "BATTLAX SPORT TOURING T30", a series of radial motorcycle sport touring tires. The Bridgestone "BATTLAX SPORT TOURING T30" is a premium brand that is steeped in technology and refined through the Company's development of MotoGP race tires, and is designed for use on medium- to large-size sports motorcycles. Designed for smooth handling and rider enjoyment, the series feature new patterns, and a new compound was employed in front tires. The tires are designed for optimal "road hugging" properties and rigidity, together with enhanced lightness, "line" tracing, dry grip and other handling characteristics.

Child Care Bike

Angelino petite*

"Angelino petite" is a "child care bike" that helps parents by allowing them to ride with two children onboard thanks to a specialized child seat on the front of the bicycle. Its parent-friendly design won it a 2012 Good Design Best 100 award. The 2013 model (released in mid-February 2013), is available in a variety of colors popular among fathers active in child rearing including matte black and sapphire blue as well as matte chocolate (available only for electric assist models), a limited edition color released to commemorate the receipt of the Good Design Best 100 award. This makes the "Angelino petite" a bicycle that lets fathers take part in their child's development while riding in style.

Golf Club Series

NEW PHYZ

November 2012 saw the release of the successor to the "PHYZ" brand of golf clubs, the "NEW PHYZ" series (available in both male and female models). The "PHYZ" brand was created for adult golfers who want to actively enjoy a lifestyle that includes golf while experiencing the depth and joy of the game, and this spirit of the brand has been inherited by the "NEW PHYZ" series. The "NEW PHYZ" series remains true to its predecessor's core concept of letting users hit balls for long distances in a relaxed state without using much strength. Further, the series has been further refined for adult golfers that realize the importance of the benefits offered by the original brand, and now enables users to hit balls even further while simultaneously easing their burden.

^{*} The Angelino petite comes in standard and electric assist models.
